CONFIDENTIAL

SECRET

SUBJECT: Preliminary Evaluation of Copy of OO Report

1. On the basis of information available, the data contained in this report does not appear to contain any significant discrepancies; and is believed to be the first wherein the source appears to have reliable knowledge on this extensive area which has proven immune to non-Soviet penetration.

2. Of particular interest are:

25X1C

3. ORR components strongly recommend further exploitation of source - or similar sources - if at all possible. Further checks should be made for ascertaining whether or not source has primary or secondary knowledge of specific projects at any of the sites listed.
